PROFESSIONAL SUMMARY

Tech Lead with 11+ years of experience building scalable cloud-native applications, AI/ML solutions, Generative AI and Agentic AI applications on AWS. Experienced in Python, FastAPI, RAG, LangChain, LangGraph, microservices architecture, and enterprise-grade AI solution development.

TECHNICAL SKILLS

Programming Languages: Python, Golang, JavaScript

Frameworks: FastAPI, Django, React

AI / GenAI: Generative AI, Agentic AI, LLMs, Prompt Engineering, Retrieval Augmented Generation (RAG), LangChain, LangGraph

Tools: Docker, Kubernetes, Terraform

Databases: MSSQL, MongoDB, Vector Databases

Platforms: AWS, Azure

Architecture: REST APIs, Microservices, MLOps

PROFESSIONAL EXPERIENCE

Tech Lead | Nov 2024 - Dec 2025

HighNoon | Bangalore

- Led backend architecture and development of a **GenAI-powered retail copilot**, enabling natural-language insights over enterprise retail data using **LLMs**.
- Built **Retrieval Augmented Generation (RAG)** pipelines integrating vector databases, embedding-based search, and enterprise datasets for contextual question answering.
- Designed backend services for LLM orchestration, prompt engineering, REST APIs, and secure API integrations.
- Implemented **Agentic AI workflows** using **LangChain** and **LangGraph** to coordinate multi-step reasoning, planning, tool calling, and task execution.
- Designed and developed AI-powered applications leveraging LLMs, prompt engineering, and enterprise data sources to automate business workflows.
- Developed scalable **FastAPI microservices** powering AI features such as data querying, summarization, and insights generation.
- Implemented **GraphQL APIs in Golang using AWS AppSync** for real-time retail data access and aggregation.

Technologies Used: Python, Golang, FastAPI, GenAI, Agentic AI, LLMs, RAG, Prompt Engineering, LangChain, LangGraph, Azure, AWS AppSync, REST APIs, Microservices

Full Stack Developer | *Mar 2023 - Sep 2023*

Purview | *Bangalore*

- Developed **Python and Golang components** in a distributed system to optimize data ingestion for **MSSQL**, improving data processing efficiency.
- Built **React-based UI** for streamlined management of data ingestion processes, enhancing user experience.
- Managed cloud deployments using **AWS** and **Kubernetes**, implementing infrastructure-as-code practices via **Terraform**

Technologies Used: Python, Golang, JavaScript, React, Pandas, AWS, Kubernetes, Terraform, SQL

Lead Full Stack Developer | *Feb 2021 - Sep 2022*

Nuviso Networks | *Bangalore*

- Led development of an **Email Analytics Tool** to analyze service outage data, improving **IBM Cloud** operations.
- Directed team in building distributed systems with **Python , Golang** and **React**, integrating with **AWS** infrastructure, scaling systems to handle daily transactions.

Technologies Used: Python, Golang, Django, AWS, Kubernetes, Terraform

Senior Software Engineer | *Feb 2020 - Jan 2021*

CGI | *Bangalore*

- Developed **SPAs** and **REST APIs** using **React** and **Python**.
- Managed **AWS deployments**
- Wrote unit tests, improving code coverage.

Technologies Used: React, JavaScript, Python, AWS, Kubernetes, Terraform

Full Stack Developer | *Feb 2019 - Jan 2020*

Nggawe Nirman Technologies | *Bangalore*

- Developed **REST APIs** and UI for a marketplace application, deployed on **AWS Lambda**, reducing operational costs.
- Managed infrastructure with **Terraform**, improving deployment efficiency.

Technologies Used: Python, Django, AWS Lambda, Kubernetes, Terraform

Full Stack Developer | *Aug 2018 - Feb 2019*

Thakral One | *Bangalore*

- Built **REST APIs** for automated load balancing, improving system performance.
- Managed **CRUD workflows** and wrote unit tests to reduce production defects

Technologies Used: Python, Django, Celery

Full Stack Developer | *Mar 2014 - Aug 2018*

Broadcom | *Bangalore*

- Migrated **PHP** to **Django**, reducing application latency.

- Led **analytics features** using nosql db monoddb and python.
- Coordinated with offshore teams, ensuring project delivery..

Technologies Used: Python, Django, Pandas, Numpy, PHP, JavaScript, AWS

Full Stack Developer | *Mar 2013 - Mar 2014*

Dexglobe | *Bangalore*

- Built an **online education platform** for school kids where they showcase their talent. • Managed and deployed on **AWS** .
- Handled marketing and platform support..

Technologies Used: PHP, MySQL, AWS

EDUCATION

Bachelor of Technology (CSE) | **2012** Amrita School Of Engineering | *Coimbatore*
